866 Hunley Project

When the Hunley Commission began the recovery project for the Civil War submarine they needed to contract with the U. S. Navy for the project director. They asked Archives and History if we would be willing to be the contracting agency for the state since the SHPO would be involved in the project. We agreed to assist with the initial Navy contract. As the project developed and additional staff were required Archives and History was asked by the Hunley Commission if we would use time-limited positions to hire the Hunley staff thereby allowing the staff members to receive state benefits. Because of the importance of the project and since one of our primary missions is to preserve the state's history we agreed to provide whatever assistance we could. All funds for staff salaries and benefits are provided by the Friends of the Hunley.
